Forward-looking statements

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

This presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to future events or DLH's future financial performance. Any statements that refer to expectations, projections or other characterizations of future events or circumstances or that are not statements of historical fact (including without limitation statements to the effect that the Company or its management "believes", "expects", "anticipates", "plans", "intends" and similar expressions) should be considered forward looking statements that involve risks and uncertainties which could cause actual events or DLH's actual results to differ materially from those indicated by the forward-looking statements. Forward-looking statements reflect our belief and assumptions as to future events that may not prove to be accurate. Our actual results may differ materially from such forward-looking statements made in this presentation due to a variety of factors, including: the continuation of the novel coronavirus ("COVID-19"), including the measures to reduce its spread, and its impact on the economy and demand for our services, which are uncertain, cannot be predicted, and may precipitate or exacerbate other risks and uncertainties; the failure to achieve the anticipated benefits of any acquisition (including anticipated future financial operating performance and results); diversion of management's attention from normal daily operations of the business and the challenges of managing larger and more widespread operations resulting from acquisitions; the inability to retain employees and customers; contract awards in connection with re-competes for present business and/or competition for new business; compliance with bank financial and other covenants; changes in client budgetary priorities; government contract procurement (such as bid and award protests, small business set asides, loss of work due to organizational conflicts of interest, etc.) and termination risks; the ability to successfully integrate the operations of any future acquisitions; and other risks described in our SEC filings. For a discussion of such risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" in the Company's periodic reports filed with the SEC, including our Annual Report on Form 10-K for the fiscal year ended September 30, 2021, as well as subsequent reports filed thereafter. The forward-looking statements contained herein are not historical facts, but rather are based on current expectations, estimates, assumptions and projections about our industry and business. Such forward-looking statements are made as of the date hereof and may become outdated over time. The Company does not assume any responsibility for updating forward-looking statements, except as may be required by law.

Introduction

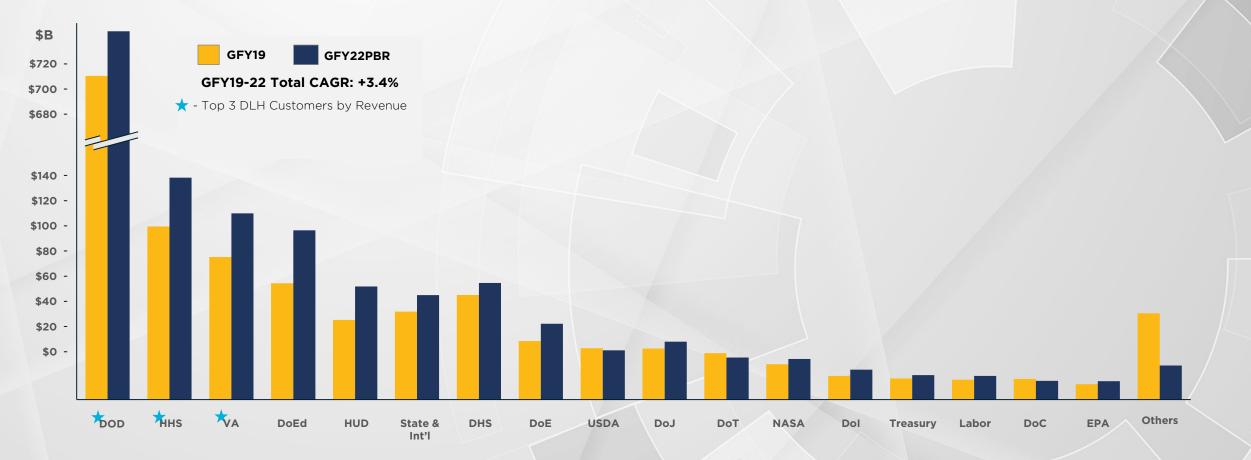

Zach ParkerChief Executive Officer

Despite global uncertainty, DLH markets remain strong

- Federal government continues to operate under a Continuing Resolution (CR), with Congress anticipated to enact a 'skinny' budget soon
- Crisis in Ukraine adds uncertainty to timing, priorities of Federal budget
- Overall budget environment remains positive for DLH
 - Emphasis on cyber security and digital transformation provides opportunity in emerging markets
 - Major customers such as VA, DoD, and HHS continue to receive widespread bipartisan support
 - Public health agencies grapple with enduring legacy of COVID-19

Federal budget growth continues to align with DLH focus areas

Federal Budget Authority (Government FY19 vs. Government FY22 Presidential Budget Request)

Source: OMB GFY22 President's Budget Request and prior budgets

DLH: Delivering health and readiness solutions through innovation

Solving complex problems faced by Federal civilian and military customers

Leveraging digital transformation, AI/ML, data analytics, secure cloud computing, modeling & simulation, telehealth, and more.

Premier credentials and certifications, world-class workforce of skilled employees dedicated to improving public health

CMMISVC/3

As COVID-19 response evolves, DLH will maintain leading role

IMMEDIATE COVID-19 RESPONSE

SHIFT TO ENDEMIC MINDSET

LONG TERM PREPAREDNESS AND RESILIENCY OVERHAUL

FEDERAL PRIORITIES

Spending focused heavily on testing, PPE, and vaccine development

Widespread testing and vaccination efforts, long-term clinical studies, and data/surveillance support

Federal agencies require new preparedness tools; ARPA-H created to drive innovation and commercial practices in health R&D

⊲DLH ROLE

COVID-19 trials and research support

Medical countermeasures and emergency medical support Studies of long-term effects and pandemic preparedness

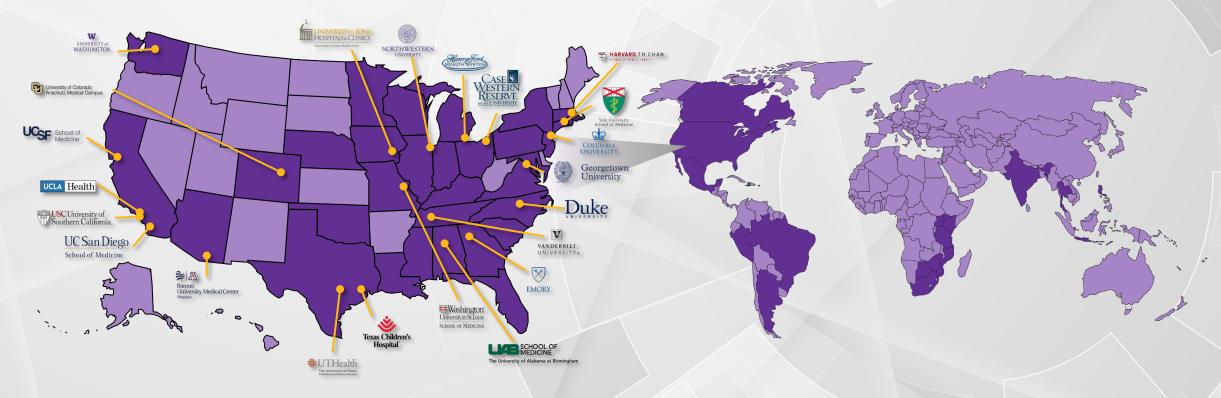

CURRENT ENVIRONMENT

Building Contract Research Organization (CRO) capacity

Existing expansive network of clinical research institutions and sites collaborating for investigational therapeutic discoveries.

DLH clinical research network location

DE&I, ESG take on renewed focus for public companies

Diversity and engagement long-time features of the DLH fabric

Board of Directors

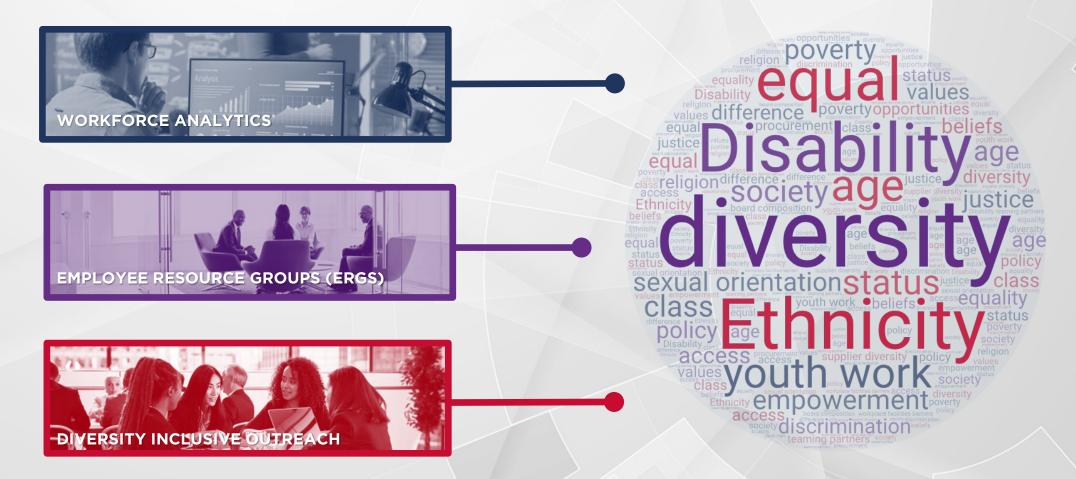

Executive Leadership Team

DE&I and ESG

Maliek Ferebee
Chief Human Resources Officer

DE&I, ESG take on renewed focus for public companies

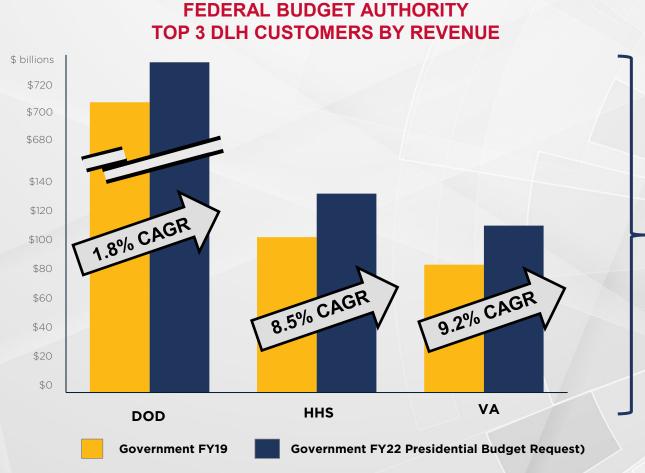

Organic Growth

Jackie Everett
Chief Growth Officer

DLH addressable markets aligned with priority budget initiatives

Addressable spending focused on high-impact technology and subject matter expertise in chosen markets to enhance mission outcomes

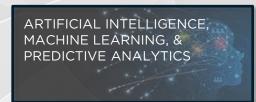

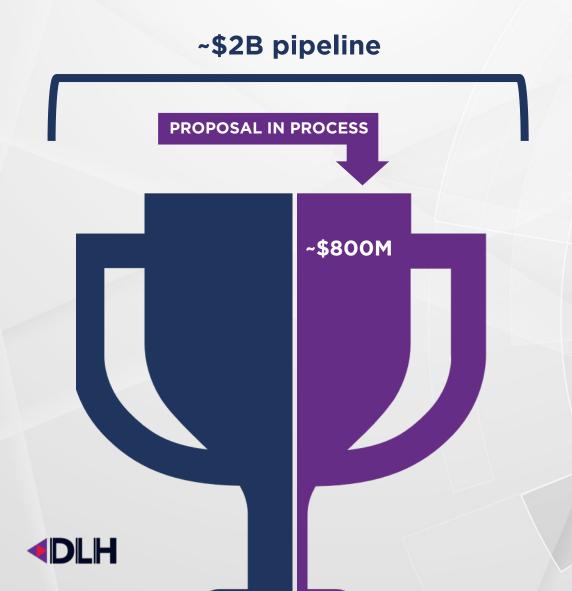

COMPLIANCE, MONITORING, AND FRAUD, WASTE, & ABUSE DETECTION

Enhanced capabilities inform a bolstered new business pipeline

- 1 Shifting care to secure technology needs
- 2 Public health infrastructure rebuilding
- Mission-focused modernization and security
- 4 Best in Class contracts
- Increased supplemental services behavioral health, non-medical counseling for military readiness and services to address social determinants of health

Prior investments in capabilities expand addressable market

FY22 and the years ahead

Continue business development discipline, driving sustainable organic growth

Expand robust contract vehicle portfolio to provide clients easy access to DLH solutions

Build upon investment in differentiated capabilities

Corporate Development

Kathryn JohnBull
Chief Financial Officer

Record CY2021 M&A transaction volume in Government Services sector

Key trends in corporate development

Substantial capital available to invest, with private equity firms continuing to expand their presence in the sector

After a Q1 pause, CY2022 is **expected to have strong deal flow** in line with 2018-2020

Valuation premiums appear to be cooling slightly, though still substantially higher than historic levels

Average deal size has been **trending up** for the last 5 years

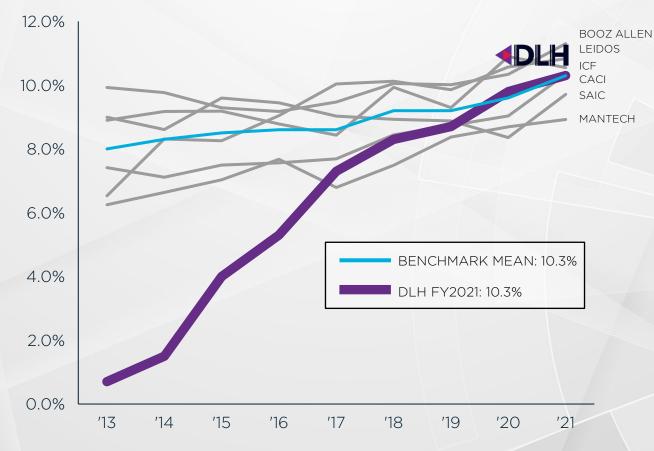

DLH has financial capacity to accomplish further acquisitions

- We have developed a **strong senior lending group** with experience in the Gov Services sector
- We have accomplished all prior acquisitions with the support of senior debt and minimal shareholder dilution (<2% of deal value)
- Given our anticipated operating cash flow and low capex requirements, we believe we have **meaningful flexibility** in financing any future acquisition we may pursue

DLH 'Phase 1' acquisition program unfolded as planned

EBITDA MARGIN PERCENTAGE

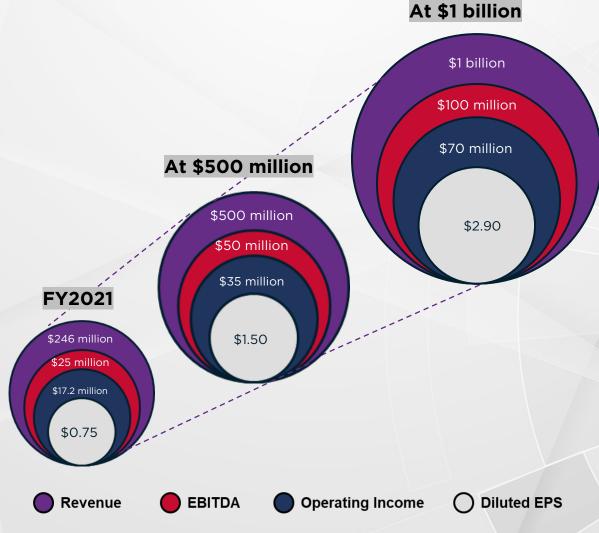

Benchmark data courtesy of CapIQ

- Achieved **financial stability** in line with benchmark companies in the industry
- Established a presence in key
 Federal health and human services
 markets
- Reconciliation of net income to EBITDA provided at slide 22

Hypothetical growth scenarios

- Scenarios do not represent forecasts and are not related to a defined time or specific acquisitions; demonstrates continued expansion of stable business base to achieve greater scale.
- Scenarios represent expected results at indicated business volumes
- Growth is expected to be delivered via both acquisitive and organic growth

Appendix

Non-GAAP Reconciliations

This document contains non-GAAP financial information including EBITDA and EBITDA as a percentage of revenue. Management uses this information in its internal analysis of results and believes this information may be informative to investors in gauging the quality of our financial performance, identifying trends in our results, and providing meaningful period-to-period comparisons. These measures should be used in conjunction with, rather than instead of, their comparable GAAP measures. A reconciliation of non-GAAP measures to the comparable GAAP measures is presented in this document. The Company defines EBITDA as net income excluding interest expense, provision for or benefit from income taxes, and depreciation and amortization; EBITDA as a percent of revenue is EBITDA divided by revenue. Definitions of the other non-GAAP measures we use in the presentation are contained in the Company's most recent earnings press release, which is available on the investor relations section of our web site at www.dlhcorp.com.

Reconciliation of net income to EBITDA and EBITDA as a percentage of revenue
